

**FRCH 101**  
**ELEMENTARY FRENCH COMMUNICATION I (FRENCH IN ACTION I) (TV) (VT)**

**DESCRIPTION:** The beginner's course will incorporate the basic elements, (listening, speaking, reading and writing) in a video cassette format. Students will view the video series FRENCH IN ACTION, and the addition of practice tapes, text, and teacher conferences will all combine to produce a total course. Entirely in French, each video program allows learners to see and hear dozens of native speakers interacting in familiar situations. Students learn to associate what they hear with the familiar situations they see, while learning to understand and use authentic French from the French perspective.
