

Canvas Tips for Faculty

Student View

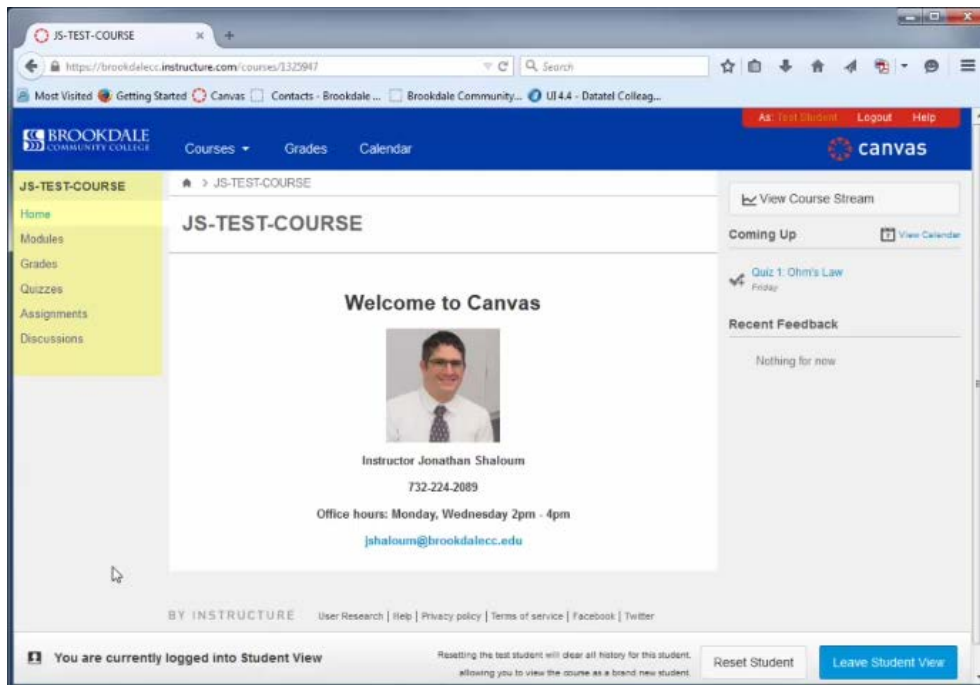

Canvas has a feature called **Student View** that allows instructors to see and use their course in the same way a student would. This can be very helpful for testing purposes.

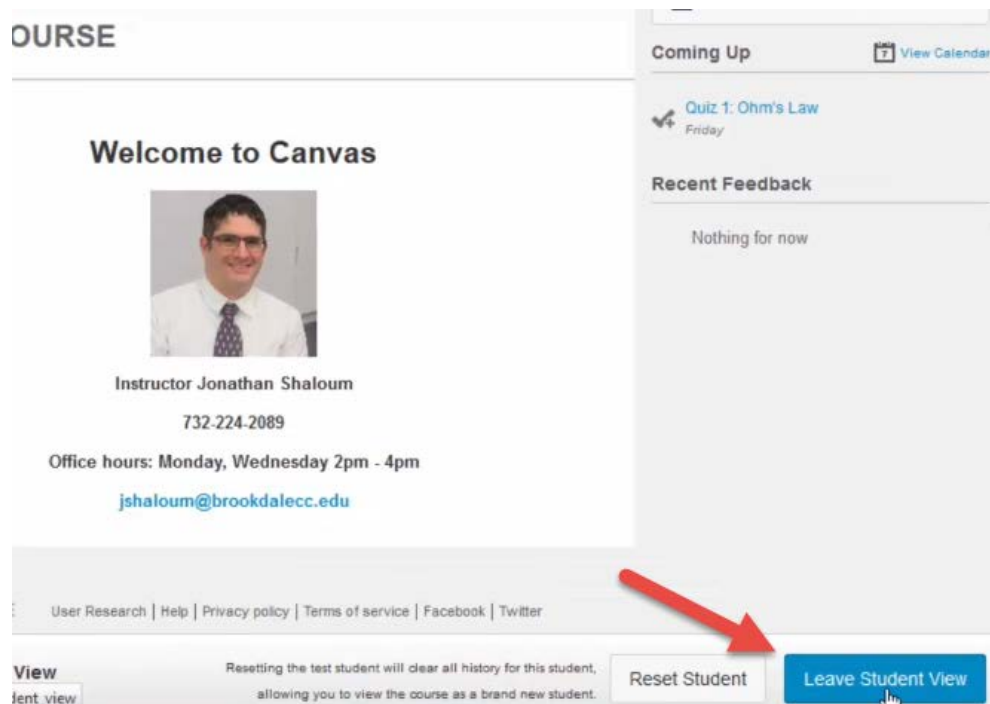

1. To access **Student View** from the Home Page, click **Settings** in the lower part of the Navigation Bar on the left of the screen.

2. In the far upper right corner of the screen, click **Student View**. You may need to scroll horizontally to see this.

3. Now you are viewing the course Home Page as a student would see it. Notice the Navigation bar on the left. All the links that normally appear in *gray* on the instructor page, are not visible in **Student View**.

4. To exit **Student View**, click the blue **Leave Student View** button in the lower right corner.
