

Canvas Tips for Faculty

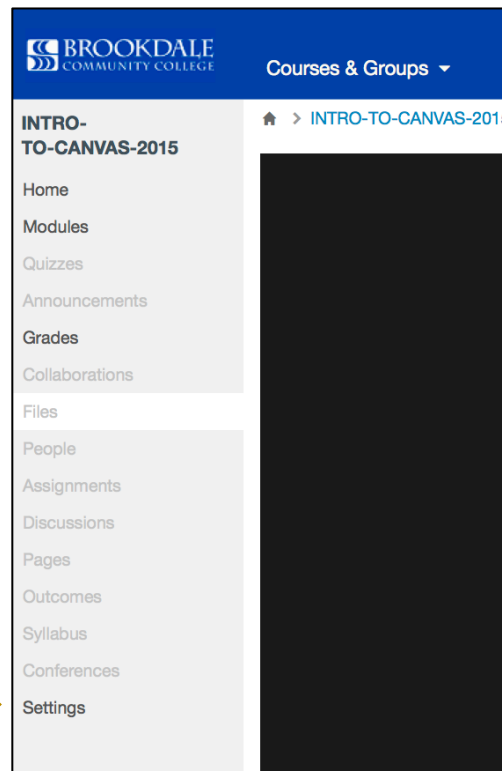

Adding Videos from the Brookdale Library

Canvas allows you to add video content to your course using the NJVid Video Browser. It allows you to select any video content that is contained in the NJVID Video Library.

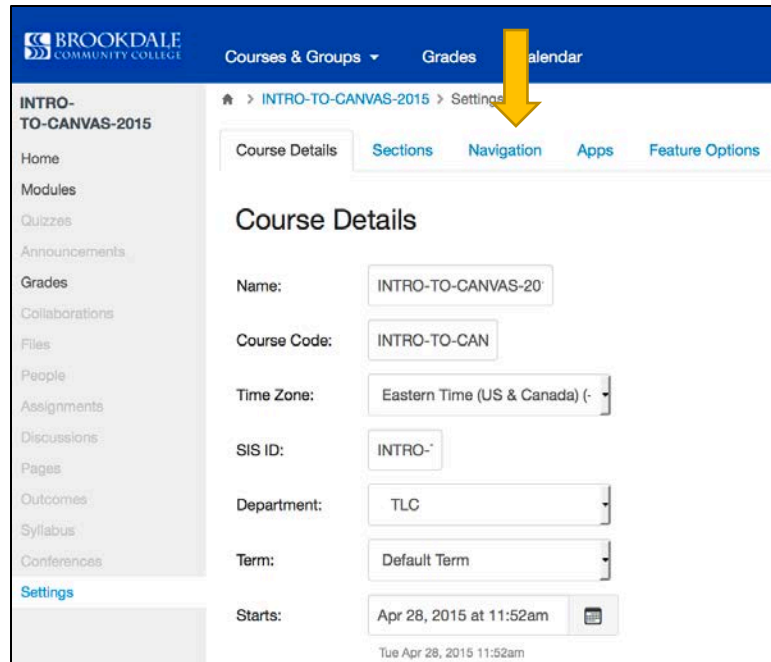

In order to use it, it needs to be enabled for the course.

Click on **Settings** at the bottom of the list on the left side of the window.

Then click the **Navigation** tab.

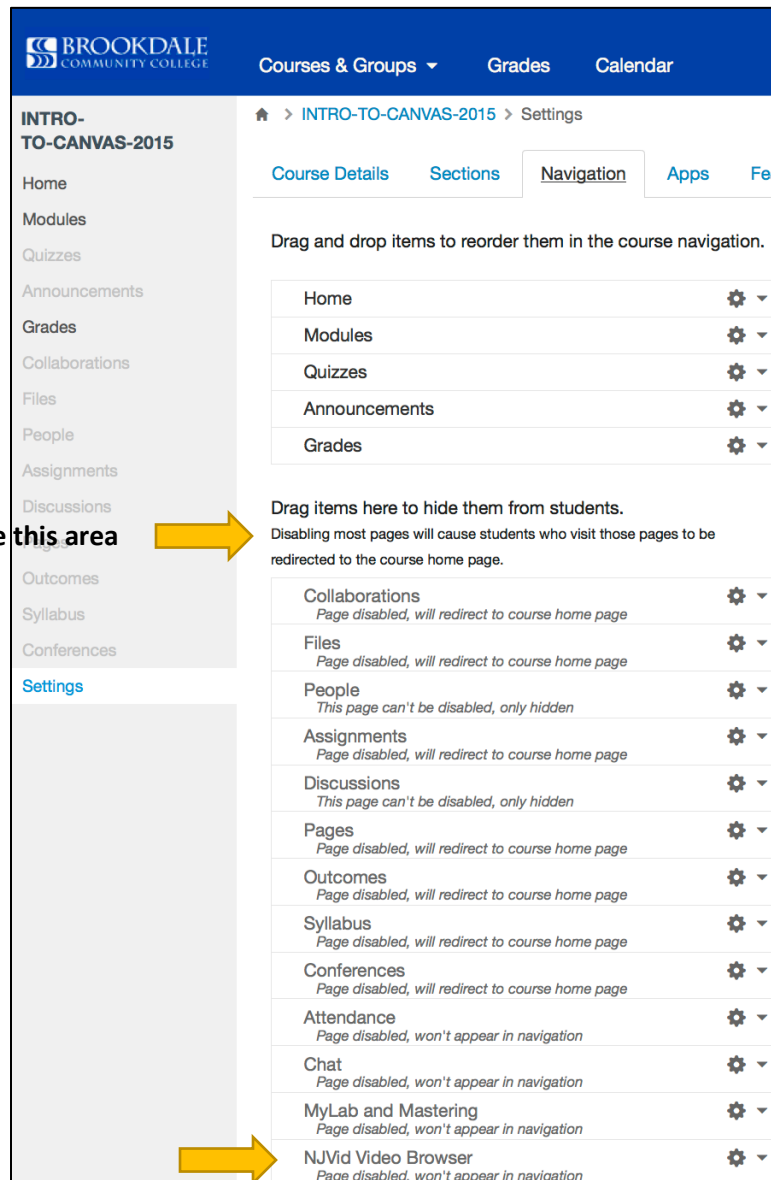

Locate “**NJvid Video Browser**” (bottom arrow).

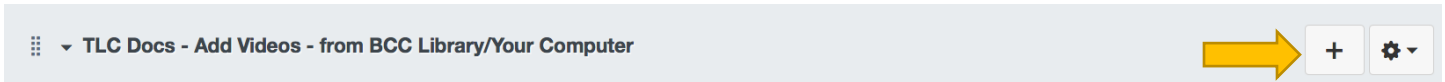

Click and drag it above “**Drag items here to hide them from students**” in order to make it visible in the Navigation listing. This will only be visible to you and not to students.

Click **Save**.

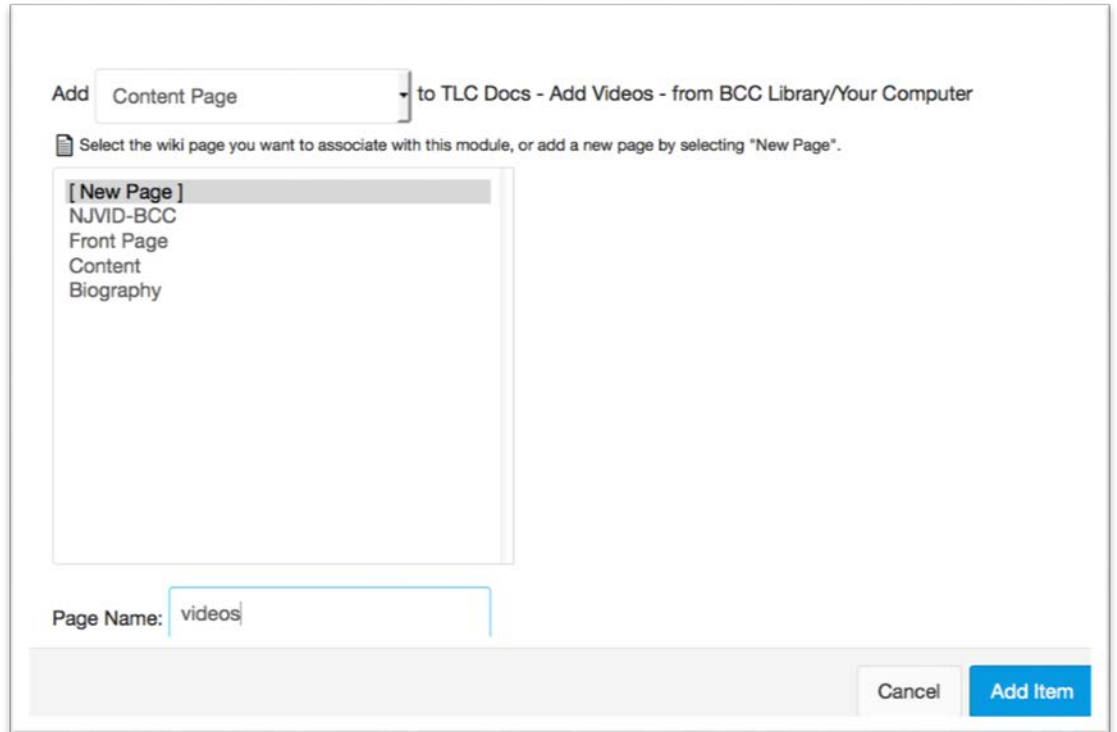

Drag above this area

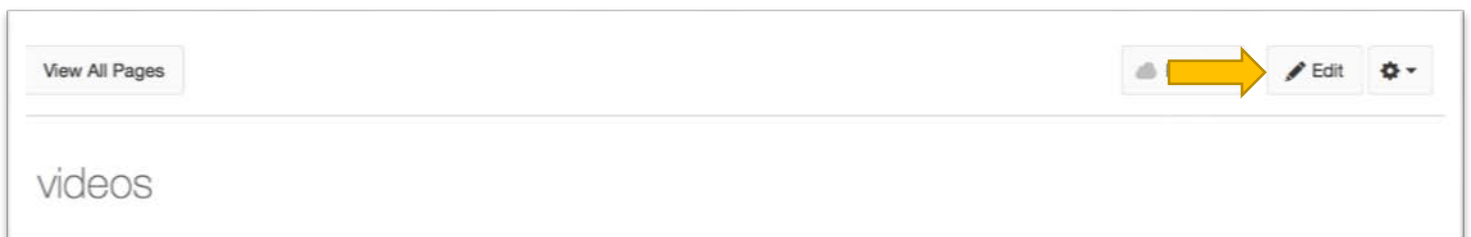

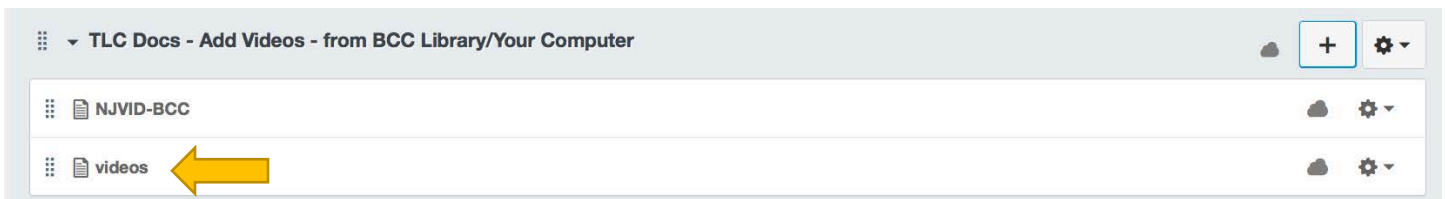

Now, go to **Modules** and add a new page to the module by clicking the + button.

Select **Content Page** from the dropdown, **New Page**, and enter a name for the page in the Page Name field. When done, click **Add Item**.

Click on the page to edit it, then click the **Edit** button in the Page window.

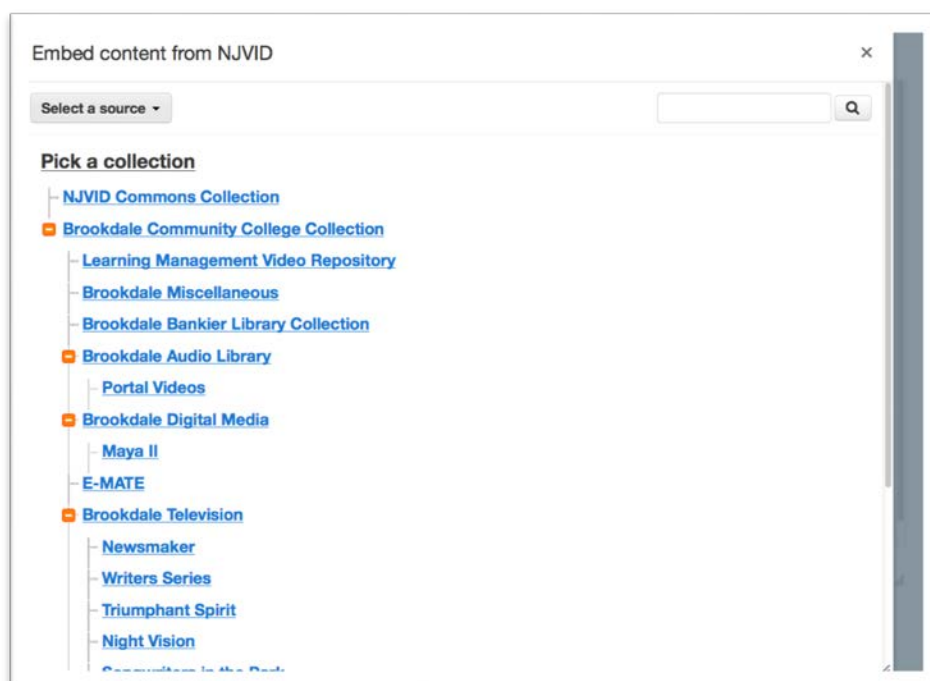

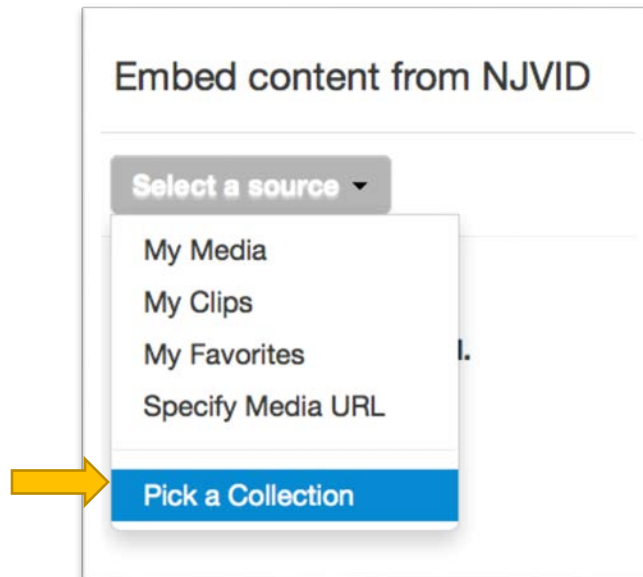

In the Rich Content Editor, click on the **NJVid** icon.

This opens a browser in which you can view content stored on NJVid.

Click the **Select a source** dropdown menu, and choose **Pick a Collection**.

You can browse the videos in the collection, or enter a keyword in the Search field if you are looking for specific content.

The screenshot shows a window titled "Embed content from NJVID" with a close button (X) in the top right corner. Below the title is a search bar with a "Select a source" dropdown and a search icon (Q). The main content area is titled "Brookdale Miscellaneous" and includes a "Sort by" dropdown. It displays "Showing 1 to 5 of 182 Resource". Five video resources are listed, each with a thumbnail, title, "Resource: Video" label, and a "Select" dropdown button:

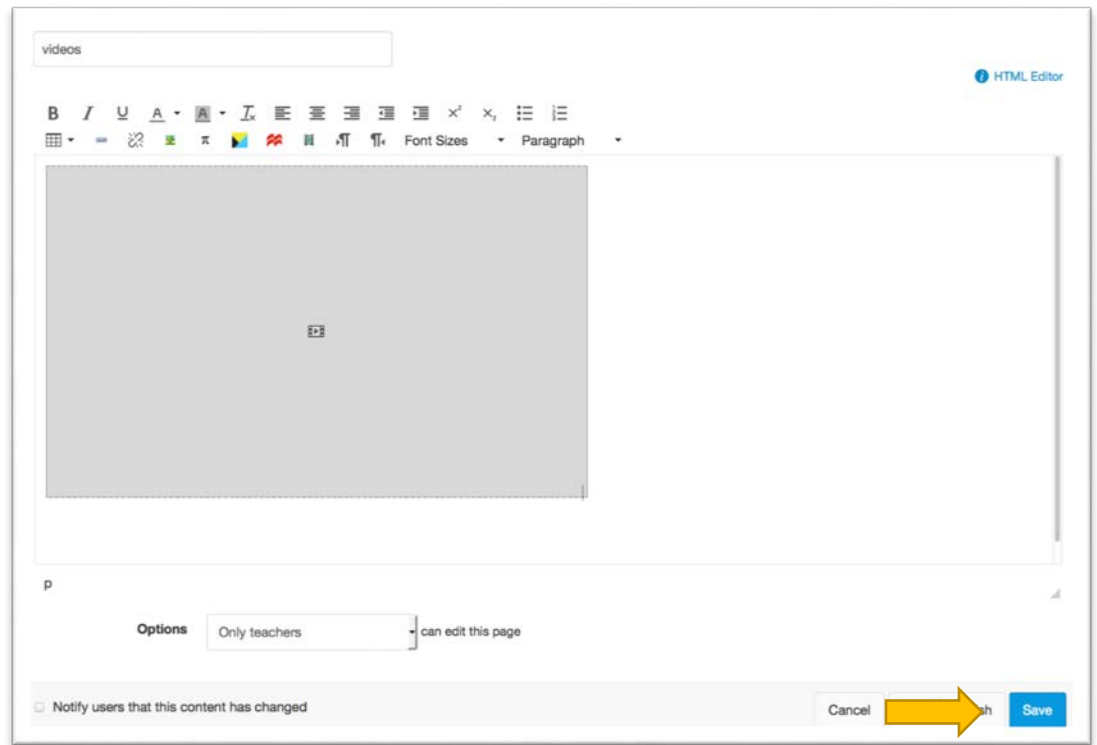

- Technology Enhanced Classroom Overview** (Thumbnail: Innovation Center logo)
- Welcome to Online Courses** (Thumbnail: Innovation Center logo)
- Early Bird Technology Overview** (Thumbnail: A person speaking)
- Registering for Classes Using the Student Planning Module** (Thumbnail: A computer screen)
- Registering for Classes Using the Student Planning Module** (Thumbnail: A computer screen)

Once you find your desired content, click the **Select** dropdown and choose the size.

This close-up shows the "Technology Enhanced Classroom Overview" video resource. A yellow arrow points from the "Select" dropdown button to its expanded menu. The menu contains three options: "Small", "Medium (widescreen)", and another "Select" button at the bottom.

The tool creates a placeholder on the page where the video can be viewed.

Click the **Save** button and you will be able to preview the page.

The student will have access to various controls for starting and stopping playback, a scrubber bar, volume control, and the ability to view the video full-screen.

videos

Be sure to **Publish** the page when you are finished.
