

Canvas Tips for Faculty

Pin a Discussion

1. If you enabled the discussions link in your course navigation, students have access to the full list of discussions. To get started, click on **Discussions**.

2. By pinning a discussion you let students know which one they are expected to work on. Discussions can be dragged into the **Pinned Discussion** Box or by clicking on the Gear Icon.

3. The **Gear** icon dropdown on the right will allow you to **Pin** or **Unpin** it's respective discussion.
