

Canvas Tips for Faculty

Create Multiple-Choice Questions in Canvas

1. To get started, create a new quiz or open an existing quiz. To add a new question, click the Question tab.

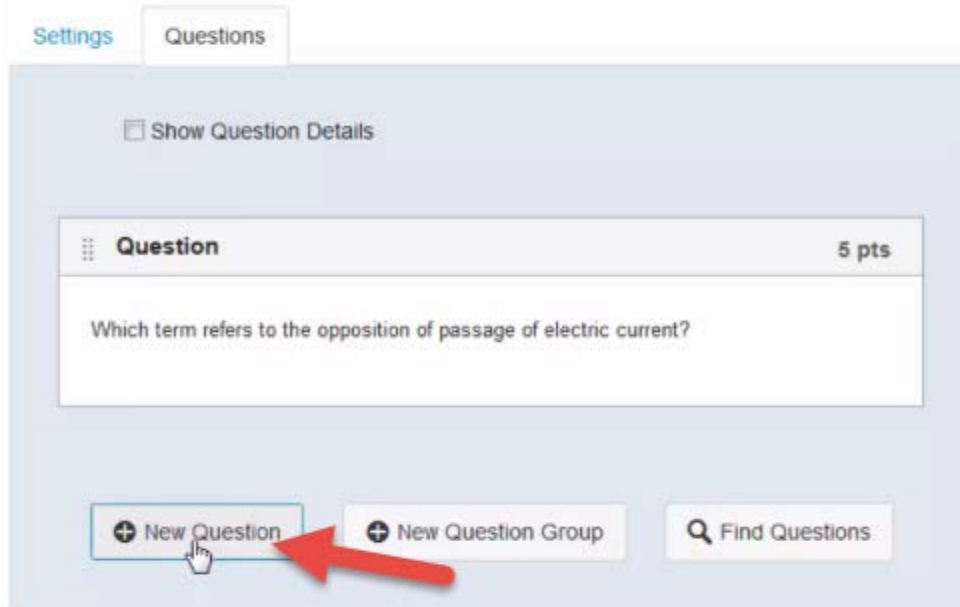

2. Click the New Question button

3. Select Multiple Choice from the Question drop-down menu. Also, assign a point value to the question or leave the default value of one point.

4. Enter a question and respective answer choice. This example demonstrates a multiple choice question with four answers

5. Add additional questions by repeating the process.
