

Canvas Tips for Faculty

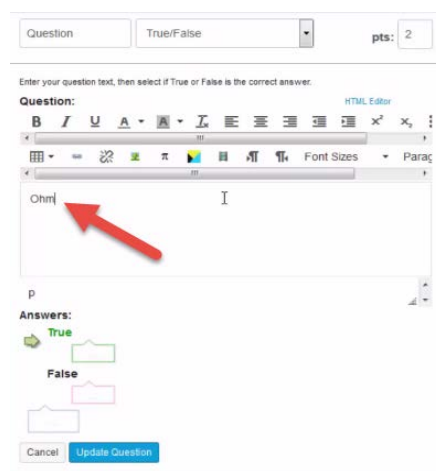

Create True/False Questions

1. To get started, create a new quiz or open an existing quiz. To add a new question, click the Question tab.
2. Click the **New Questions** button.

The screenshot shows the Canvas question editor interface. At the top, there is a 'Question' tab and a dropdown menu currently set to 'Multiple Choice'. A dropdown menu is open, showing various question types: Multiple Choice, True/False (highlighted), Fill in the Blank, Fill in Multiple Blanks, Multiple Answers, Multiple Dropdowns, Matching, Numerical Answer, Formula Question, Essay Question, File Upload Question, and Text (no question). To the right of the dropdown, there is a 'pts:' field with the value '1'. Below the dropdown, there is a text area for the question and a rich text editor. At the bottom, there are three 'Answers:' sections, each with a radio button and a text input field labeled 'Answer Text'.

3. Select True/False from Question drop-down menu. Also assign a point value.

The screenshot shows the Canvas question editor interface with the 'Question' dropdown set to 'True/False' and the 'pts:' field set to '2'. Below the dropdown, there is a text area for the question and a rich text editor. The question text is 'Ohm|' and the cursor is at the end of the text. A red arrow points to the text area. Below the text area, there are two 'Answers:' sections, each with a radio button and a text input field. The first radio button is labeled 'True' and is selected. The second radio button is labeled 'False'. At the bottom, there are 'Cancel' and 'Update Question' buttons.

4. Enter a question.

Question True/False pts: 2

Enter your question text, then select if True or False is the correct answer:

Question: HTML Editor

Ohm

Answers:

True

False

Cancel Update Question

5. Select True or False as the correct answer for your question.

Answers:
