

Below is the required format to create a Multiple Choice and True/False quiz to be published to ANGEL using Respondus software. Quizzes are best created using Notepad; *an asterisk is placed before the correct answer.*

When listing questions and answers, it is important to note that **no bulleted lists** will be recognized by the software. It is necessary to manually type in the numbers for the questions and the letters for the answers.

At least **one space** is required between the period and the first character of text.

1. According to your testbook, "Getting an internship at a major corporation requires a great deal of work, but the rewards are well worth the effort." is an example of a(n):
